Saint-Aubin

Saint-Aubin 1^{er} Cru

Murgers des Dents de Chien

This plot is located at the southern end of Saint-Aubin on the border of the Grand Cru appellation “Chevalier Montrachet”. The soil is very calcareous, the distorted and holey stones are outcropping and in the shape of dog teeth. The south-facing plot was planted in 1988. Sustainably grown, the vines are pruned in Guyot Poussard or simple Guyot.

After being handpicked, the harvest is lightly crushed then pressed in a pneumatic press. The juice is then allowed to settle and placed by gravity in French oak barrels to ferment with indigenous yeasts. After aging in barrels for 12 months (20% of new oak barrels), the wine is placed in vats for 3 months and is bottled at the estate.

The colour of Saint Aubin 1er cru Murgers des Dents de Chien is bright yellow with light green highlights. The minerality dominates with a lot of finesse on the palate and a long and rich finish. This wine can be drunk young but it will be fully reveal itself in 3 to 10 years.
